

**Independent School District of Boise City  
Technology Department**

**Curriculum Software Evaluation Form**

Date: \_\_\_\_\_

Curriculum Supervisor Contact: \_\_\_\_\_

IT Staff Contact: \_\_\_\_\_

Course: \_\_\_\_\_

Software being previewed: \_\_\_\_\_

Technology interests:

Please answer the following questions about the supplemental technology components of curricular materials:

1. Does it operate as a stand alone application (no sharing is required)?
2. Does it require a network connection (i.e. access to the Internet or share data)?
3. Does it require accounts (student or staff) to be established, managed, or supported?
4. Is it hosted by an outside company on the Internet (i.e. web based)?
5. Does it require secure connections to an outside server (i.e. Internet based)?
6. Are there special hardware requirements (i.e. memory, disk, and video)?
7. Does this require the firewall to be compromised or exceptions to the proxy servers (Internet filtering)?
8. What is the desired timeline for implementing this software?
9. SIF Compliant?

Curriculum interests:

A. Please rate on the following scale:

1. Must have, e.g. critical part of adopted text or tested curriculum.
2. Important resource, e.g. supplemental materials for adopted text/curriculum.
3. Optional, e.g. good resource for students who need supplemental assistance or extension activities.

B. Fits with curricular priorities and goals.

C. Is this the best software available to meet the curricular objectives?

D. How many students will use the application, concurrently, and total?

E. What is the size of projected deployment? (All 4th grade Teachers)

F. How is the curriculum goal currently being met? Other software? Verbal delivery?

G. How will this software improve the current delivery method?

Other software reviewed included: \_\_\_\_\_.
