

Using the Forms

You will find several forms available for you to download and personalize with your school's contact information. There are several different recruiting forms to offer to parents/patrons, and two different forms for teachers to utilize to meet specific volunteer needs.

In addition, you will find an example of a volunteer handbook.

Once you have downloaded these forms, you may add your school logo, contact information and make any other changes that would best benefit your school.

Back to School Night, Open Houses, and Parent-Teacher Conferences are a great time to contact parents and give them an opportunity to sign up to volunteer.
